ISI CURRENT CONTENTS CONNECT GUIDE

ISI CC Connect, produced by the Institute for Scientific Information, indexes 7,000 journals, 2,000 books and conference proceedings, in a rolling 2 year file, updated daily. Available from computers connected to ALNET at <http://isi4.isiknowledge.com/portal.cgi> or link from library home page: <http://library.aecom.yu.edu>. For further assistance or remote access information, contact the Reference Department in person, by phone at 718.430.3104 or by email at askref@aecom.yu.edu.

TO START

1. On the ISI Web of Knowledge home page, click on ISI Current Contents Connect
2. On the ISI CC Connect home page, click 
3. On Search Limits screen, click **off** Editions/Collections you **do not** wish to search and select desired **Time Frame**
4. Click on 

BROWSING TABLES OF CONTENTS BY JOURNAL TITLE

1. Click the  button
2. Click the first letter of the journal's title from the **Journal Title Browse** list
3. Click on the journal title desired
4. View the table of contents
5. Click on article titles to view full records

BROWSING TABLES OF CONTENTS BY CC EDITION & DISCIPLINE

1. Click the  button
2. Click the CC Edition & Discipline you wish to browse
3. Select Table of Contents of Journals (or Web Sites)
4. Click desired title, issue
5. Click on article titles to view full records

SEARCHING THE DATABASE and DISPLAYING RESULTS

1. After selecting Editions/Collections and Time Frame on Search Limits screen and submitting limit changes, select a search field from the menu, then click on **SEARCH**.

SEARCH FIELDS

Topic/Subject	TS	Searches words from titles of articles & book chapters, author keywords, KeyWords Plus and author abstracts
Title	TI	Searches words from article and chapter titles
Address/Institution	AD	Searches all author and institution addresses
Author/Editor	AU	Searches all author and editor names from journals and books
Journal Title	JT	Searches titles of journals and books
Document Type	DT	Searches for specific document types
Language	LA	Searches for articles written in specified languages
Discipline	DI	Searches CC discipline categories

It is best to use the  to search in the first five fields above.

Field Combination	Searches two or more different search fields in a single statement
Set Combination	Combines previous search statements using search operators and set numbers

SEARCH OPERATORS

AND, OR, NOT, THRU, SENT or SAME

SAME or SENT- the terms joined by SAME or SENT must occur within the same sentence for the record to be selected

THRU - use THRU to join sequential set numbers with OR operators

For example: 1 THRU 4 is equivalent to 1 OR 2 OR 3 OR 4

TRUNCATION/WILDCARD SYMBOLS

* = any number of characters ? = one character

2. You may enter up to 25 search statements (sets).
3. Click on  to run search.
4. Click on **Results** number to display citations in brief form, and then on titles for full records.

MARKING RECORDS

1. **To mark a single record** - on brief record view, check the box next to desired record. On full record view, click the box labeled **MARK**.
2. **Marking multiple records** - check selected records on brief record display and click on **UPDATE LIST** to add selected results to Personal Interest Checklist, OR click on **MARK PAGE** to select all records displayed.
3. Click **MY LIST** at top of screen to view your Personal Interest Checklist of marked records.

SAVING, PRINTING, AND IMPORTING RECORDS from your Personal Interest Checklist

1. Click on  icon at top of screen.

2. Select desired fields to include in the output.
3. Select an option and click on appropriate button to Format to Print, Save to File, or Export to Reference Software.
4. Click on your web browser's Print command to print marked records.

SAVING AND RUNNING A SEARCH STRATEGY

1. You can save search statements as a strategy, which is stored on the ISI Web of Knowledge Server or on your computer. The first option results in a weekly e-mail with that week's results from your search strategy.
2. At bottom of Search screen, click on 
3. To save search strategy on the ISI Web of Knowledge server, click on Register and fill in required information.
4. Reconnect to CC Connect, select desired limits and time frame and click on  to open and run your search strategy.

ADDITIONAL FEATURES

1. Links to full text of articles in selected online journals (you or the library must have a subscription to the online journal).
2. Links to records in GenBank, the genetic sequence database produced by the National Center for Biotechnology Information.
3. Links to the full text of a specific Web page that contains searched terms.
